

# Preparing for Amazement Ministries

Empowering and equipping churches and leaders to create lasting and transformational health

September 2022

## Update

Fall is a busy travel season for our team with conferences, trainings and more. We are excited to be launching our new platform with resources for churches and church leaders that want to help churches revitalize. The book, Habits of Healthy Churches will be launching in the next several months. In the next month we will also be sharing some information on our website about our partnerships with other ministries and organizations. We continue to work on building more support for our ministry. Our financial model includes 40% of incoming coming from service fees and the other 60% from grants, fundraisers and donations from individuals, businesses and churches. You can learn more on our website where you will also find a lot of great resources and information. Thank you for taking time to read our update. Please take a moment to like our social media pages and subscribe to our YouTube channel.
