

Preparing for Amazement Ministries

Pastors4Pastors-Coaching Tracks

Every pastor needs a pastor too!

In addition to the initial coaching sessions, Pastors4Pastors participants receive yearly leader coaching time with the Preparing for Amazement Ministries staff. The number of coaching hours available each year is determined by the subscription level. Each year, participants have the opportunity to choose from one of three coaching tracks.

Leader Health

Outside of the work of God through the Gospel, health trumps all in the life of a leader. A continuation of the initial coaching sessions, this track takes a deeper look at leader health. Personalized to the strengths and goals of the participant, this track seeks to increase leader health in one or more of the seven categories of leader health.

Self-Knowledge through the Enneagram

Self-knowledge is not a tool in the leader toolbox; it is the tool box. Self-knowledge is the ceiling for leadership growth and effectiveness. Through individual coaching sessions, this track seeks to help participants grow profoundly in understanding of self through a deeper look at the enneagram. More than a personality profile, the enneagram is one of the most powerful tools for deeper self-knowledge.

Spiritual Formation

As leaders, we can only give what we have. Everything we offer flows out of our own personal spiritual formation, our relationship with Jesus. To make disciples, we must continue to grow in our own discipleship journey. Through personal coaching sessions, the spiritual formation track focuses specifically on the spiritual life of the leader, combining intentional discipleship with spiritual direction catered to the unique nature of leadership.
