

# Preparing for Amazement Ministries

Empowering and equipping churches and leaders to create lasting and transformational health

July 2023

## Ministry Moment

### The Pastor Crisis

We are facing a full-blown pastor crisis.

Consider these numbers:

- In a 2 year period the number of pastors seriously considering leaving ministry has increased from 29% to 50% (Barna Research)
- Only 31% of US pastors consider themselves healthy (Pew Research)

Pastors are usually the caregivers, but even caregivers need care. Even pastors need love, support, and encouragement. This is truer than it has ever been.

Pastors need pastors too. Without healthy pastors, church staff, and leaders, we cannot have healthy churches. Health is the greatest factor in the effectiveness and longevity of pastors, ministry leaders, and churches.

Communities need healthy churches. Churches need healthy pastors. Our pastors need us. To learn more about church and leader health, connect with us at [amazed15.org](http://amazed15.org).

## What We Do
