### ■ SPONSORSHIPS

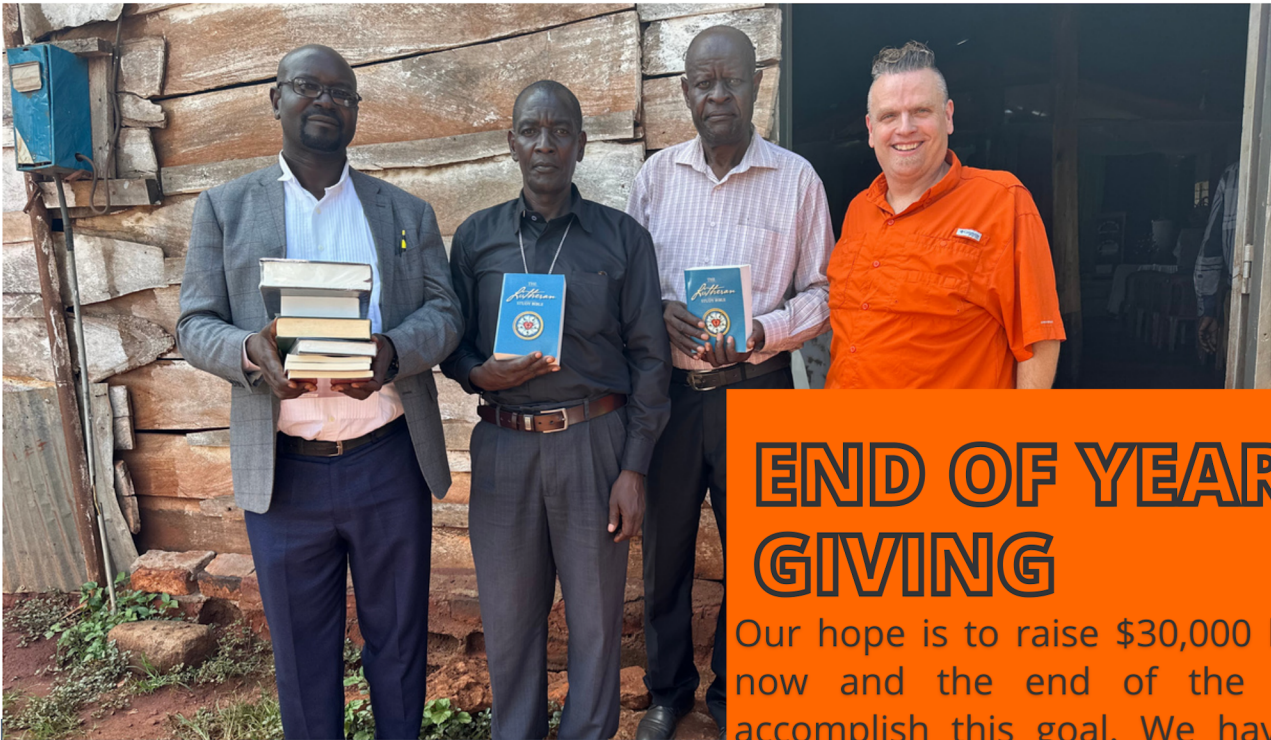

We offer many different ways to partner together with the work we are doing. Learn more [here](#).

## AFRICA 2023 UPDATE

Members of our team (our Executive Director Marcus and Ministry Coach Erick) along with a worship pastor (Glenn Green) spent two weeks in Uganda and Kenya training pastors, youth pastors, worship pastors and other ministry leaders. We were also able to preach in a variety of church settings and have a variety of meetings with current and potential future ministry partners. It was a very successful trip and we appreciate all those who supported it.

We are also excited to announce a new partnership aimed at serving our pastors around the world, especially those who have little to no access to education or training. We will now be able to offer Certificate, Bachelors and Masters degrees to pastors around the world through Kairos University. You can sponsor a vetted ministry student for only \$100 a month with some programs as short as a year and most programs no longer than four years. You can learn more on our sponsorship page of the website. You can also review our full international ministry initiatives and plan on our website.

## END OF YEAR GIVING

Our hope is to raise \$30,000 between now and the end of the year to accomplish this goal. We have many great new ways to support our work through sponsorships. You can view those sponsorships [here](#). Would you consider supporting us with a year end gift and make a difference in churches and pastors around the world?

We have had an amazing 2023 at Preparing for Amazement Ministries and are ending our year with some new partnerships and initiatives after our recent Africa trip. We believe that 2024, which will be our fifth year as an official ministry, will be our best! We are hoping that you might partner with us to finish 2023 strong and get a great start for 2024.

### AFRICA IN REVIEW
