### BLOG

"Walking through ministry as a healthy leader requires us to be constantly mindful of our margins." Read this post and more at the link below <http://amazed15.org/blog>

### VISIT YOUR CHURCH

Did you know there are seminars and retreats offered through as part of our ministry? Read descriptions of our seminars [here](#)

### SPONSORSHIPS

Our ministry moves forward with your support. We have varying levels of commitments and needs that impact leaders here and abroad. Check out the opportunities to partner with us [here](#)

## LOOKING BACK

2023 was another great year of ministry for our team and we could not have done it without the support of individuals, churches and other organizations around the world. We continued our work with over 30 ministry leaders through our Pastors4Pastors initiative. We also continued our work with churches seeking revitalization in the midst of a very challenging season of ministry in the United States. Finally, we conducted two ministry training trips to Uganda and Kenya, impacting hundreds of Pastors and ministry leaders. Our Habits of Healthy Churches seminar and book are having an impact around the world.

## AND LOOKING FORWARD

We are looking forward with excitement to 2024. We have launched a new partnership with Kairos University to provide a variety of degrees to pastors in poverty around the world. We will begin work on our next book, Habits of Healthy Leaders. We hope to expand each of our programs and continue to increase our impact on churches and leaders. We are also planning a trip to a couple Asian countries as well as another possible trip to Africa. There are many opportunities to spread the word about our ministry, pray for our work and support us through financial gifts and sponsorships. As always, feel free to visit our website or reach out with questions.
