Equipping Leaders, Revitalizing Churches: Pastor Training in Tala, Kenya

This month, Preparing for Amazement Ministries had the privilege of conducting a transformative pastor training in Tala, Kenya, bringing together 45 pastors from four neighboring villages. Despite traveling long distances and overcoming significant resource challenges, these dedicated leaders gathered with a shared desire to grow in their calling and better serve their communities.

Led by our trainer, Erick Liona from Nairobi, Kenya, the training focused on the first three modules of our church revitalization curriculum: Leader Health, Church Health, and Discipleship & Missional Living. The sessions were highly interactive, creating space for pastors to openly discuss the realities of ministry, share challenges, celebrate victories, and learn practical ways to strengthen their leadership and congregations.

Beyond the training itself, one of the most meaningful outcomes was the opportunity for fellowship and connection. Many rural pastors often serve in isolation with limited opportunities to network with fellow leaders. These gatherings create a vital sense of community, encouragement, and mutual support that extends far beyond the training sessions.

This initiative is part of our ongoing international mission to revitalize the Church by equipping leaders in underserved and high-poverty communities with practical, biblically grounded training. Through the faithful partnership of our donors and supporters, we are able to provide these life-giving opportunities to pastors who would otherwise have little access to leadership development resources.

We are deeply grateful to everyone whose generosity made this training possible. Your investment is helping strengthen churches, communities, and Kingdom impact across Africa and beyond. Our next pastor training is scheduled for the end of July 2026. We invite you to partner with us as we continue equipping leaders and revitalizing churches. Every gift, no matter the size, helps us reach more pastors and expand our impact.
